Army Family Housing Master Plan (FY 03-09)

The 2002 Army Family Housing Master Plan has been prepared by the Office of the Assistant Chief of Staff for Installation Management (ACSIM) to articulate the Army's plan to transition from inadequate to adequate family housing units. This plan also supports the Secretary of Defense's initiatives to eliminate out-of-pocket expenses for soldiers living off-post, increase the use of housing privatization and continue revitalizing Army owned housing.
